Level 2: Advanced

Workshop Methodology

Our *Outstanding Customer Service* workshops are structured in a sequential progression from core concepts to specific skills application. Customer service principles and theories are introduced, with discussions and exercises to ensure all learners understand and agree. The core principles in the course are drawn from The Six Pillars of Customer Service. This is followed with learning tools and exercises to help learners transfer the concepts into specific workplace behaviours.

Interactive and Engaging

Retail View Workshops are highly interactive, entertaining and engaging. We use a blend of learning techniques, and focus heavily on tactile learner interaction. Rather than relying on cumbersome workbooks with classroom theory (we do have workbooks – they just aren't cumbersome), the workshops include series of exercises, discussions, role-plays and other activities to ensure that each participant is engaged and gaining the most at each step.

Program Content

The Difference Between Good And Outstanding

Participants will analyze two parallel case studies that graphically illustrate the difference that taking ownership of situations can make. Working in small groups, they will explore how to apply these concepts in their specific environments.

Mapping The Customer Journey

Participants will go through a unique exercise to understand their customer's journeys, and will identify the significant ways in which they can impact customer experience and loyalty.

Building Lasting Rapport

Participants will learn how to combine the skills learned in this workshop to create strong, long-lasting rapport. They will be introduced to the Dale Carnegie principle of "You can make more friends in two weeks being interested in other people, than in two years trying to get other people interested in you."
